

Buckner & Garcia, Hyperspace

Asteroids around me, don't know where to run;
I'm somewhere between the moon and the sun;
I'm in command of three ships and there's more on the way;
I'm a space cadet, I can really play!

Hyperspace,
Push on the button and I'm back in the race.
Hyperspace,
Shooting my rockets all over the place.
I'm invisible now but I'll be back again;
Kick in the thrust, 'cause I've just got to win.
I've just got to win!

There's a ship on the rise and he's shootin' at me;
I rotate my ship and at the count of three
I fire and shoot and blow him out of the sky;
I push on the button and wave bye-bye.

Hyperspace,
Push on the button and I'm back in the race.
Hyperspace,
Shooting my rockets all over the place.
I'm invisible now but I'll be back again;
Kick in the thrust, 'cause I've just got to win.
I've just got to win!

Asteroids all around me, don't know where to run;
I'm somewhere between the moon and the sun;
I'm in command of three ships and there's more on the way;
I'm a space cadet, I really know how to play!
