

# Buckshot Lefonque, Black Monday

I know that I was not the one  
To let my feelings show  
In any way that mattered  
The moment I felt  
She might mean something to me  
I would just run away  
I felt that love was for the fool  
Would tarnish any jewel  
Turn a diamond to simple coal  
Because in all my life  
I never met that someone to make me feel love  
was right, alright

Chorus:

Now I'll do most anything for you  
To bring your love  
Back into my empty world  
You're the only girl I'm thinking of  
Though I'll never know why you left this way  
I'll try to understand  
'Cause the moment you were in my life  
Made me better than I am  
Now I see how issues from the past  
Can manifest themselves  
In your feelings for others  
My bitter heart would poison loving souls of those  
Who tried to come too close  
And then you came into my life  
And filled me with the strength  
To face the pain inside me  
Now that I've given you  
The best part of my heart  
I see you have your issues too  
Your issues too

Chorus

Better than I am  
I'm better than I am  
Though I'll never know why you left this way  
I'll try to understand  
'Cause the moment you were in my life  
Made me better than I am
