

# Buddy Guy, Hold That Plane

Ohh, I'm playing this morning  
Please don't let those jet-engines start

Ohh, I'm playing this morning  
Please, please don't let those jet-engines start

When I hear your engines goin'  
You know, it almost drives me out of my mind

Oh, but the last few mornings lately  
Before I get out of my bed

Oh, but the last few mornings lately  
Just before I get out of my bed

You know I can hear your engines goin'  
And it almost drives me out of my head

Oh, but the last few mornings lately  
Before, before I get out of my bed

Oh, but the last, but the last, but the last few mornings lately  
Before, before I get out of my bed

Well, you know I can hear your engines goin'  
You know, it almost drives me out of my head
