

# Buddy Guy, No Lie

I know you're getting sick and tired of me baby, this that I can plainly see  
But deep from the bottom of my heart, baby, I know, you're hurting me  
But just as sure, sure as you are born to die  
But, baby, I love you, and you know, that's no lie

I'd rather fight a bear, baby, jump down in a lions den  
Than to hear you keep on telling me baby that this is the end  
But just as sure, baby, sure as you are born to die  
But, baby, I love you, and you know, that's no lie

Alright! Have mercy baby! Yes, yes, yes

Yes, just look how you're doing me, baby, since<sup>1</sup> you got up on your feet  
You're going away to leave me, baby, I got this without no meat  
But just as sure, sure as you are born to die  
But, baby, I love you, and you know, that's no lie

Oh yeah, baby  
Somebody got to help me
