

# Buddy Guy, Sit And Cry (The Blues)

Oh, I've got no one there for now  
Since my baby's love had been done with  
Well, I don't know what to do  
I sit and cry and sing the blues

Well, no one to cry on her sweet name  
And my heart is filled with pain  
Oh I only think of you  
I sit and cry and sing the blues  
Blues found in my bloodstream  
Blues found in my home  
Blues found in my soul  
I got blues all in my bones

Oh no one to depend on  
Since my baby's love had been gone  
Oh I don't know what to do  
I sit and cry and sing the blues

Oh yeah!  
Come here baby!

Oh no one to depend on  
Since my baby's love has been gone  
Whoa, I don't know what to do  
I sit and cry and sing the blues  
I sit and cry and sing the blues
