

Buddy Guy, Sweet Black Angel (Black Angel Blues)

Oh I got a sweet black angel
Oh and I love the way she spreads her wings
I got a sweet black angel
And I love the way she spreads her wings
Don't you know it
I get joy in everything

Oh when she spreads her wing all over me
Ah don't you know I get joy in everything
Oh, when my angel spreads her wing all over me
People you know I get joy in everything
You know I feel a joyfull mood
I sit right there and I don't say a thing

Now look-a-here

Oh, if my black angel should quit me
People I do believe I would die
Oh oh if my my my my my black angel should quit me people
You know you know I believe I would die
You know if you don't love me angel
Please tell me the reason why

Yes I got the blues
Can I keep on can I keep going?
