Buddy Holly, Tell Me How

Tell me how to keep your love You know how I need your love Tell me how you keep the love Within your heart from me

Don't you know that I love you? Let me show why I'm true blue When I know our love is true Don't keep your love from me

If you would say to me today
The time for love is now
Could I sway your love my way?
Then I say tell me how

Tell me how to keep your love You know how I need your love Tell me how you keep the love Within your heart from me

If you would say to me today
The time for love is now
Could I sway your love my way?
Then I say tell me how

Tell me how to keep your love You know how I need your love Tell me how you keep the love Within your heart from me Tell me how you keep the love Within your heart from me
