

Buffalo Tom, When You Discover

Come back when you are done
Looking down on everyone
Ain't it hard when you discover that you're dumb

Open up your sleepy eyes
Cut off all your family ties
Ain't it hard when you realize you're young

All these noises in your head
Last time I saw you
You were dead

Roll your eyes back in your head
Mark the words that I have said
Come back when you realize you're dead

All these noises in your head
Last time I saw you
You were dead

Roll your eyes back in your head
But mark the words that I have said
And come back when you realize you're dead

Ain't it hard when you discover that you're dead
