

# Buffy Sainte-Marie, Dance Me Around

And when I think about all I missed  
All those kisses that you gave to someone else  
I wish I'd been around  
But I was up there in the air  
while you were over here  
with both feet on the ground

Who'd've ever thought it  
that it shoulda been you and me  
Got to find a way to show it  
This effect you have on me

When I think about what I missed  
I wish I coulda been your girl

And when I think about all I've lost  
I could never count the cost  
Cause of what we've got for free  
And now it's later,  
maybe better late than never  
I don't know  
But here you are with me

Dance Me Around again  
Hold me like it's never gonna end  
Finally I've found  
somebody who's always been a friend

When I think about what I missed  
I wish I coulda been your girl.
