

Building 429, I Believe

Walk blindly to the light and reach out for His hand
Dont ask any questions and dont try to understand
Open up your mind and then open up your heart
You will see that you and me and very far apart

Cause I believe that love is the answer
I believe love will find a way

Violence has spread worldwide and theres families on the streets
We sell drugs to children now, well why cant we just see
That all we do is eliminate our future with the things we do today
Money is our incentive now so that makes it ok

Walk blindly to the light and reach out for His hand
Dont ask any questions and dont try to understand
