

Building 429, Singing Over Me

In the middle of the night
When I finally close my eyes
With the memory of the day
Running circles in my mind
The voice that calms the seas
Is whispering to me
Putting all my fears to rest
Yeah You put them all to rest

Then I realize that You're always by my side
When I stand, when I fall, when the lights go off

You You're singing over me
You're singing over me tonight
With every star that's in this midnight sky
You, You're singing over me
You're singing over me tonight
And my heart is overcome with Your song
with Your song

From the depths of my soul
You are calling me
To the evidence of You
In all Your Glory
From the iris of an eye
To the mountains majesty
Putting all my doubts to rest

Yeah then I realize that you are always by my side
In my worst and best, in this beating chest,
When I'm living dying always finding

You You're singing over me
You're singing over me tonight
With every star that's in this midnight sky
You, You're singing over me
You're singing over me tonight
And my heart is overcome with Your song
with Your song

I'm singing along
Yeah, I can hear it
And I'm singing along
