## Built To Spill, You Were Right

You were wrong when you said everythings gonna be alright You were wrong when you said everythings gonna be alright You were right when you said all that glitters isn't gold You were right when you said all we are is dust in the wind You were right when you said we're all just bricks in the wall And when you said manic depression's a frustrated mess You were wrong when you said everythings gonna be alright You were wrong when you said everythings gonna be alright You were wrong when you said everythings gonna be alright You were right when you said you cant always get what you want You were right when you said it's a hard rain's gonna fall You were right when you said were still running against the wind Life goes on long after the thrill of living is gone You were right when you said this is the end Do you ever think about it? Do you ever think about it? Do you ever think about it? Do you ever think about it?
