

# Bullet For My Valentine, Omen

Its in your head  
Its in your bones  
Its in your heart  
Its in your soul  
Pushing the limits possessed by the spirits  
You're losing control of yourself  
Feel the resistance forget your existence  
In time you'll get used to the taste  
Its in your blood  
Its breeding deep inside those bones  
Now feel it breaking out  
And tearing up your soul  
Now you're alive  
Awake in your own paradise  
Embrace this energy  
And free yourself from misery  
Time to breathe  
These words have been spoken  
You can't believe the lies of the omen  
You'll never know if its a dream or reality  
Time to heal or demons will drag you down  
Live for the moment the future is broken  
This focus you just can't repel  
Minute by minute you're pushed to the limit  
And getting too close to the edge  
Now you're alive  
And need to feed this appetite  
Now hear it screaming out  
And burning up inside  
Are you alive  
Live  
Are  
Are  
You  
You  
A  
Live  
Embrace this energy  
And free myself from misery
