

Bum Ruckus, Think Once

Some people work eighteen hours a day
Don't you think by now that they've earned a change
This is all the time that they have
What's reading or a math class or two
If you have something that you'd rather do
This is all the time that you have
When were lying on our deathbed
Will we wish we spent more hours at the office instead
This is all the time that we have
Should I get a job or go back to school
I just enjoy my life and do what I want to do
This is all the time that I have

I told you I recently discovered
That everything I want in life is free

And this is all that I can be (all that I can be)
And I wouldn't change much
And this is all that I can be (all that i can be)
Life's so short just think once

To those unhappy people that hate their life
They could be gone tomorrow would that be alright
This is all the time that they have
Should I get a job or go back to school
I just enjoy life and do what I want to do
This is all the time that I have

What is it I want, I want to meet a girl
Want to fall in love I want to change the world
Want to be happy want to be with real friends
Want to look forward not afraid of the end
Want to spend some time with this time I got left
Spend some time with my family
Spend some time with my pets
Want to see the world, want to live day by day
Cause I know in just one heartbeat this can all go away

What do you want to spend your life mad
This all the time that we have
I'm still breathing and for that we are glad
This is all the time that we have
Life is so short for you to be sad
This is all the time that we have
I'm still living for that we are glad
This is all that, This is all that
