Bumblefoot, Pretty Ugly

You're such a pretty pretty pretty girl
Stuck in a pretty pretty shitty world
But girl, you were meant for me
You're so pretty ugly

Ya got such pretty pretty stupid friends
You know they're gonna screw ya in the end
So run away with me
We'll be pretty ugly

So let's drive until we reach the sun
Don't say goodbye to anyone
You coulda shoulda woulda made things fine
But now you're pretty ugly and you're mine
You're pretty ugly and you're mi-mi-mine

Ya really got a pretty fucked up life
Someday you're gonna be my fucked up wife
We match so perfectly
I'm pretty you're ugly

We got nothin' but the rest of time
If I could I'd spend it all holding you tight
Cause no other girl can make me feel so fine
And now you're pretty ugly and you're mine
You're pretty ugly and you're mi-mi-mine

You're such a pretty pretty pretty girl
Stuck in a pretty pretty shitty world
We're pretty ugly - just like everything
