

Burden Brothers, Come On Down

Come on down
I want to meet you
I want to meet you all

All you angels gather round
Shower all your beauty down
All you angels gather round
I want to meet you all

Gather round you angels
Let me lay my hands on you
Come on down you angels I want to touch you all
Come on down you angels I want to meet you all

Come on down
I want to meet you
All you angels gather round
Shower all your beauty down
All you angels gather round
I want to meet you all
