

Burden Brothers, Shadow

I don't want to tie you down
I don't want to break your stride
So if you got to go then go
And I will be the shadow at your side
You know I got to find out
Just what you're made of
So this is your song now
This is your song now

And I am the shadow at your side
I am the shadow

So won't you put a light on
And put it in your window
To let me know you're at home
To let me know you're alone
Know that I am waiting
Always waiting
Know that I am watching
Always watching
Let me follow
Let me follow

And I am the shadow at your side
I am the shadow

Let me follow you
I will
Let me follow you
Let me

And I am the shadow at your side
I am the shadow
