

# Burden Brothers, Still

As you roll your way to sleep  
There's one promise you must keep  
With your heart, with your mind  
Make a circle, your design  
As you watch the world go spinning  
Keep your center all the time  
I know you can, I know you will  
Still forever, forever still

I know you can my love  
Give up, give in my love  
You can, you will my love  
Forever still my love

Throw your anchor out to sea  
Cut it loose and let it sink  
Keep this promise on your lips  
Breathe it slowly as you drip  
Let the tide take you up with it  
It will bring you back to me  
I know it can, I know it will  
Still forever, forever still

I know you can my love  
Give up, give in my love  
You can, you will my love  
Forever still my love

I'm catching you  
I see you move  
The way you move  
the way your fall  
I'm catching you  
Now you catch me

I'm catching you  
I see you move  
The way you move  
the way your fall  
I'm catching you  
Now you catch me  
Now you catch me

I know you can my love  
Give up, give in my love  
You can, you will my love  
Forever still my love

I know you can, I know you will  
Still forever, Forever  
I know you can, I know you will  
Still forever, Forever still still
