

Buried Dreams, Redemption

[Lyrics: De Yta]

[Music: De Yta, Valdespino, Mendoza]

Bright as the sun
Saved from the scum
Lying in motion
The path to redemption

Hear the whispering Silence
Skinning her off
With the sacred knife
Her soul is for the gods

Staring in silence
I wait this psycho coma
Speechless before her
I am lost in her blood

REDEMPTION!!!!

This Flesh is so sweet
It covers my worst sins
I feel so secure
And the gods will light our way

As the night falls down
She wears the crown
And we hope the gift
For a new day drift

She starts to shake
While the winds blow by
All the staring eyes
At the flesh that'll dry
But will give us... light!

The ritual in the night
For the never ending light
As she reaches immortality
I bleed for my insanity

As we approach the holy ground
She drowns into this trance
She takes my bloodied hand
And thanks me for this endless gift

[Solo Ndua]

Dancing in the ritual night
We are waiting for her to start the flight
What we only hear forever is...
I'm free of my skin!!!

Redemption!!!
