

Burna Boy, Sittin' On Top Of The World

(I'm just tryna be me) Go, go ahead, it's your time, baby
It's your time, baby, get wild, baby (I'm just tryna be me)
That's the difference when you're my baby
That's how it is when you're (Sittin' on top of the world)
(Top of the world, top of the world, top of the world)
Her body make me stop the world
(Top of the world, top of the world, top of the world)

Feel my thug passion
Give you what you ask for
So tell me if you want action
Until the lights back on
I get the one wey go last long
In an eleven room mansion
Pure like water where dey for nylon
I pull up in my high fashion, every light flashing
Anyway
We can go ahead and just head out
And chill up in my villa
Together the whole night
Just get in the drop top, take the head out
And cruise with your head outside

(I'm just tryna be me) Go, go ahead, it's your time, baby
It's your time, baby, get wild, baby (I'm just tryna be me)
That's the difference when you're my baby
That's how it is when you're (Sittin' on top of the world)
(Top of the world, top of the world, top of the world)
Her body make me stop the world
(Top of the world, top of the world, top of the world)

Tell me what do we do
When these people don't know
What you been through
You survived through the night
Through the darkest of times
It's only right that you do what you like

(I'm just tryna be me) Go, go ahead, it's your time, baby
It's your time, baby, get wild, baby (I'm just tryna be me)
That's the difference when you're my baby
That's how it is when you're (Sittin' on top of the world)
(Top of the world, top of the world, top of the world)
Her body make me stop the world
(Top of the world, top of the world, top of the world)
(I'm just tryna be me) Go, go ahead, it's your time, baby
It's your time, baby, get wild, baby (I'm just tryna be me)
That's the difference when you're my baby
That's how it is when you're (Sittin' on top of the world)
(Top of the world, top of the world, top of the world)

You're mine, you can do anything you want
(Top of the world, top of the world, top of the world)
It's your time, it's your time
Turn 'em down, turn around
(I'm just tryna be me, I'm just tryna be me)
(Sittin' on top of the world)
(Top of the world, top of the world, top of the world)
(Top of the world, top of the world, top of the world)
