

# Burning Heads, The Fuse

No one tells you when you're wrong  
Keep on singing the song  
Days and nights seem so long  
The time spent trying all alone

Left or right direction  
You will have to learn  
Open our heart and listen  
Wonders are all around

No one's really got a clue  
What's inside of you  
Better think for yourself  
Dont expect more advice from me  
I need some from myself

Find your way and your size  
To exit from the maze  
I got no more lessons to give  
You got no more time to waste  
And got only one life to live  
You got to find the fuse

No one's really got a clue  
What's inside of you  
Better think for yourself  
Dont expect more advice from me  
I need some from myself  
I got no more lessons to give  
You got no more time to waste  
And got only one life to live  
You got to light the fuse
