

Burning Heads, Time To Get Away

It's time to get away

It's time to get away from this world...

Please tell me why do you lie girl,

The guy is dead but you're still alive...

Please tell me why do you lie,

Just face the truth what you're hiding from

The world around you keeps going round and you will never stop it

Please tell me why do you lie,

You still feel the pain as time goes by

Please tell me why do you lie,

Won't you just give us another chance?

The world around you keeps going round and you will never stop it

When you lie, life goes on and you will never stop it
