

Burning Spear, Bad to worst

The all wild world knows that
It's getting from bad to worst
From bad to worst
Getting from bad to worst
Getting from bad to worst
Getting from bad to worst
Even myself knows that too, why can't you
Give us all rights and justice, equality and love
It's maybe one or two, feeling the same way
All I can see and hear the people sayin' it is
Getting from bad to worst
Getting from bad to worst
Even myself knows that too, why can't you
Getting from bad to worst
Even myself knows that too
Why can't you, who can't do something, do what they can
Do what they can, getting from bad to worst, to worst
Calling Africa, calling Africa,
African and Africans Shouldn't chase their
Brothers Please don't kill one another, for world power
It's Getting from bad to worst, to worst
All over the all wild world, all over
All over, all over
It's Getting from bad to worst
Getting from bad to worst, to worst, to worst
Getting from bad to worst
Getting from bad to worst
Why can't you?
Even myself knows that too, why can't you?
Why can't you?
Why can't you?
All over, it's getting from bad to worst
