

# Burning Tree Project, Hero

Save the day  
Come take this all away  
Come on now  
Say something to slow her hands around my neck  
Just cut off her arms  
Throw my pills into the well we drink  
infect the words that we say  
Can you hear me now?  
Why can't you hear me?  
Save the day  
Come take this all away  
Come on now (whoa... oh...)  
My hearts on the floor  
What are you waiting for  
Come on now (whoa... oh...)  
Indecisive thoughts running through my veins  
Come wash them away  
Slowly screaming calling out your name  
Come save the day  
If we find what we're missing  
The space that needs filling  
The strings' still embracing my neck  
We'll hold up each but look for another  
To see if our words will connect  
What are you waiting for?
