

Burt Bacharach, Casino Royale

Beware, beware,
There's danger in the air.
Have no fear bond is here,
They'll never get the jewels.
Bond is here have no fear.
There goes a spy,
There's evil in his eye.
Have no fear bond is here,
The formula is safe
With old double o seven.
He's got a red-head in his arms.
Though he's a lover,
When you are in trouble
Have no fear.

Look who's here: James Bond.
They've got us on the run
With guns and knives,
We're fighting for our lives.
Have no fear bond is here.
He's gonna save the world.
Bond is here have no fear...(fade)

"(note: This arresting piece of material was performed on the original Soundtrack for the motion picture by the incredibly popular Herb Alpert and the Tijuana Brass. It was later issued as a single recording by the Brass. a & amp; m records chalked this recording up as one of the group's top-selling efforts.)"
