

# Burt Bacharach, Come And Get Me

I know what life has done to you  
Things haven't been much fun for you  
That's why you went away  
And now, I'm all alone  
I wasn't meant to be on my own

Turn back, turn back  
And come and get me,  
Oh, come and get me  
Take me along,  
I don't care where you lead me,  
If you leave me  
It can't be wrong  
Just to be with you  
There's no place in this world  
That I wouldn't go

This time isn't the time for you  
You have to be where the skies are blue  
And here, the skies are gray  
Darling, I understand  
Don't you need someone to hold your hand

Turn back, turn back  
And come and get me,  
Oh, come and get me  
Take me along,  
I don't care where you lead me,  
If you leave me  
It can't be wrong  
Just to be with you  
There's no place in this world  
That I wouldn't go

Oh, please, won't you tell me  
Where you've gone to, gone to  
If I knew where you were I'd be right there  
Please, send me hope to be hanging onto  
Just to show me you care
