

Burton Cummings, Bridge In Time

He got Johny and the Hurricans, Henry Mancini,
Ooh Poo Pah Doo y'all, Be Bop a Lula,
Randy doin' Jerry Lee, strike me Southern poses,
Walden Cosotto gonna bring you yellow roses...
And will all of these wonders come to pass,
Take a special few of them and store them in your heart,
Yes will all of these wonders passing through
That's a bridge in time...That's a bridge in time...

There's a would-be intellect with nothin' new to tell us,
Somehow got nerve enough to use the name Elvis,
Search for the talismans...like a four leaf clover,
I think I must have found one cause I'm shakin' all over...
And with all of these wonders come to pass,
Take a special few of them and store them in your heart,
Yes, will all of these wonders passing through
That's a bridge in time...That's a bridge in time...

Coulda' seemed like yesterday they hardly even paid ya,
Never really mattered though...'cause no one ever upstaged ya
Search for the high note, get the thrill of a lifetime,
Even if you miss it now, you always got next time...
And with all of these wonders come to pass,
Take the very best of them and store them in your heart.
Yes with all of these wonders passing through
That's a bridge in time...That's a bridge in time...
He got Johny and the Hurricanes...Henry Mancini
