

Burton Cummings, Come On By

Hey little girl, you're lookin so good
Dressed up nice like a little girl should
Tight little sweater and a short little skirt
Hey little girl, you're quite the flirt

What am I doin' after the show?
Gee honey, gosh, I don't know
Probably just watch TV or somethin', ya know
Holiday Inn, Room 234

Come on by, we'll have a good time
Come on by, we'll drink some wine
We'll get high everything will be fine
Your mama won't know so your mama won't mind

Say you like the sound of a lout guitar
And what's it like being a rock and roll star?
You wanna ride in my big black car?
Well how soon honey, and how far?

You're a sweet young thing
But that's alright
Age ain't everything
You know they're right
And will I be stayin' up late tonight?
Well, come on by and I just might

Come on by after the show
Come on by room 234
Come on by we'll let the good times roll
Your mama won't mind because your mama won't know

Come on by , babe
Come on by , honey
What ya doin' later

Step into my office, lover
I got some important business to discuss, ya understand?
Come on by
