

# Burton Cummings, It's Hard

It's hard to live your life in pain  
It's hard to stand 'gainst the blindin' rain  
It's hard to live love on the brain  
Look out... here it comes again  
Well look out, here it comes again

It's hard to live for yesterday  
It's hard to stand in your own way  
It's hard to mean just what you say  
Look out... you'll get blown away  
Well look out, you'll get blown away

Some folks make it look easy  
Croon like peaches and cream  
But I don't think it's so easy  
If you know what I mean

It's hard to live your life in pain  
It's hard to stand 'gainst the blindin' rain  
It's hard to live love on the brain  
Well look out... here it comes again  
Yeah look out... here it comes again
