

# Burton Cummings, Love Dream

I might be loose-lipped  
I'm doing too much talking,  
Not much time now just for sittin' around,  
I gotta move fast  
Runnin' stead of walkin'  
Got an angel over my shoulder  
Down here on the ground...

Cause I got a love dream  
There's no more auditions  
Got a love dream  
You've got the starring part, my honey  
Big screen  
It's no apparition  
Got a love dream  
Cause you been running away with the part  
You're running away with my heart.

It's full-fledged afternoon  
No more gloomy mornings  
Hold my head up proudly  
As I dash on by  
I got some big bliss  
I mean to hold on steady  
Got an angel over my shoulder  
And she's so close by...

Cause I got a love dream...  
Love dream...  
You're starring honey...  
Love dream...
