

# Burton Cummings, Mile A Second

Ooh, I thought I was all right 'til I met you  
Thought I was off in the fast lane, too  
Just goes to show how little you know  
Just goes to show how little you know  
Cause I can't keep up, I can't keep up  
I can't keep up, I'm out of breath and I'm sinking fast  
Never gonna last

Because you're movin' 'bout a mile a mile a mile a mile a mile a second  
You know you're movin' 'bout a mile a mile a mile a mile a mile a second  
Baby movin' 'bout a mile a mile a mile a mile a mile a mile a mile a mile a mile a second

What do you see when you look behind you?  
What do you see when you look behind you?  
What do you see when you look behind you?  
Me... don't you remember?  
What do you see when you look behind you?  
What do you see when you look behind you?  
What do you see when you look behind you?  
Me... but you're gone again

Ooh, I thought I was OK, 'til I got down here  
Thought it was plotted out and my future looked awful clear  
Yes it did, yes it did  
Just goes to show how little you know  
Just goes to show how little you know

Cause I can't keep up, I can't keep up  
I can't keep up, I'm out of breath and yes I'm sinking fast  
Don't think I'm gonna last

Because it's goin' 'bout a mile a mile a mile a mile a mile a second  
You know it's movin' 'bout a mile a mile a mile a mile a mile a second  
Goin' 'bout a mile a mile a mile a mile a mile a mile a mile a mile a mile a second

What do you see when you look behind you?  
What do you see when you look behind you?  
What do you see when you look behind you?  
Me... remember the travellin'  
What do you see when you look behind you?  
What do you see when you look behind you?  
What do you see when you look behind you?  
Me!
