

Burton Cummings, One Day Soon

One day soon we'll understand,
Before we've gone too far...
One day soon we're meant to see
Exactly who we are...

One day soon we'll understand
When the story's told,
One day soon we're bound to know
It will all unfold.

Fight for what's right and fight for what you've been given
Chase the disbelievers away...
One day soon our light will shine,
We will find our way.

We have the means and we have the powers
We can chase the dark side away...
One day soon our light will shine,
We will find our way.
