

# Burton Cummings, Someone To Lean On

Caution to the wind and both feet first  
Not like someone who's been down  
Lovely lines but not rehearsed  
Someone else sends 'em around

Funny what a smile can do  
Funny what a touch can get you through  
I found me someone to lean on  
And I pray she leans on me  
Ah, I found me someone to lean on  
And I pray she lean my way

Smilin' ev'ryday and that's a first  
Never knew I was ever down  
Loving eyes can quench your thirst  
It's just so nice to have that 'round

Ev'nin' comes, stay at home now  
No more runnin' around  
I found me someone to lean on  
And I pray she leans on me  
Ah, I found me someone to lean on  
And I pray she lean my way
