

Burton Cummings, Timeless Love

Timeless love is livin' on
Here in my heart baby
And here in my song

I miss your laugh
And I miss your smiles
I hope you hear this
Across the miles
And if ya do,
Maybe my nights won't seem as long

So I'll sing about you
In the morning sun
And I'll sing about you
When my music's all done
Then I'll smile
'Cause it feels good even missin' ya

So I'll sing about the day you said goodbye
Then I'll sing one to many and I'll start to cry
But that's OK
'Cause it feels good even missin' ya

Cry my memories away
They haunt me by night, honey
And they chase me by day
I think about what I left behind
A piece of my heart and a piece of my mind
But still and all
They weren't enough to make you want to stay

So I'll sing about you
In the morning sun
And I'll sing about you
When my music's all done
Then I'll smile
'Cause it feels good even missin' ya

So I'll sing about the day you said goodbye
Then I'll sing one to many and I'll start to cry
But that's OK
'Cause it feels good even missin' ya
