

# Burton Cummings, Whatever Happened To Your

You don't wanna dance whenever I get gypsy feet  
You're comin' on cold but underneath it I can feel the heat  
Babe there was a time yo coulda knocked me right outta my seat,  
But no more...  
Whatever happened to your eyes...

Don't seem to me that it would make an awful lot of sense  
You've been creepin' around and you've been fishin' for compliments  
Babe there was a time that you were drippin' with confidence,  
But not now,  
Whatever happened to your eyes...

From over here it seems they mighta been cryin'  
From over here it seems they're barely dry  
It would appear that recently they witnessed  
The truth through some old lover's lies...  
And they're talking, whatever happened to your eyes...  
They've been cryin', they've been cryin',  
Whatever happened to your eyes...
