

Bush, Inflatable

Let it slide overhead
When I believe in you, my soul can rest
But this love, it's really love
It can never fail, but fail it does
When we shine like the sun
You seem the only one, my only friend

You're so pretty in white
Pretty when you're faithful
You're so pretty in white
Pretty when you're faithful
When you're faithful

I resigned from myself
Took a break as someone else
It's like I come undone
And I've only just become inflatable for you

You're so pretty in white
Pretty when you're faithful
You're so pretty in white
Pretty when you're faithful
You're so pretty in white
Pretty when you're faithful
When you're faithful

I don't mind most of the time
But you push me so far inside

You're so pretty in white
Pretty when you're faithful
You're so pretty in white
Pretty when you're faithful
You're so pretty in white
Pretty when you're faithful
You're so pretty in white
Pretty when you're faithful
When you're faithful
When you're faithful
