

# Bush, Old

Hell, that useless void  
Feed your faith paranoid  
Wash these hands for a change  
One step closer, five away

She's been around  
All the way  
Nothing left  
Give it all away  
Give it all away

Sell me up a jagged straights  
Eat the words left on my plate  
Stop the show  
'Cause I am small talk game  
Talk to me is it good to live

She's been around  
All the way  
Nothing left  
Give it all away  
Give it all away  
Give it all away

Every day give yourself away  
Coming undone in that human way  
Human way

Oh, she's been around  
All the way  
Nothing left  
Give it all away  
Give it all away  
Give it all away
