

Buslav, Running on high

1 ZWR:

The Stars are shining bright
They seem so close to us
I souls are trapped in mind
But it will be not long time

The glow of moon just makes things clearer
We cannot lose, we've got to be nearer
We're made from dust, but we've got to be nearer

REF:

We're Running on high
We're Running on high

2 ZWR:

We're made to be light to find what's truly divine
We're going up, please strip my fears
With naked soul, our truth will set us free

The lights of stars will light our faces
We're running breathless to higher places
We're made from dust but we're moving to greatness

REF:

We're Running on high /4x
We're Running on high /4x
