

Busted, Late night saun

Late night sauna saw you sittin in the corner
Somethin' crossed my mind and I couldn't hide
I feel it deep inside
Brain starts ticking,
and then I saw what you were thinking
girl you read my mind
And by this time I'd locked the sauna door
Girl can you feel this chemistry
Look into my eyes
cos it feels like heaven trapped between ya thighs
Most importantly the stamina and energy will make things last all night
Windows are steamed up, people can't see in, gotta sweat it out, gotta suck it in
Most importantly the stamina and energy will make things last all night
Late night sauna Late night sauna
Here comes ya sister
She's kinda cute cannot resist her
I unlocked the door cos I wanted more
she says she's 24
what a bonus
I, I felt the heat between us
Now theres 3 on 2 theres more to do unlock the door again
Girl can you feel this chemistry
Look into my eyes
cos it feels like heaven trapped between ya thighs
Most importantly the stamina and energy will make things last all night
Windows are steamed up, people can't see in, gotta sweat it out, gotta suck it in
Most importantly the stamina and energy will make things last all night
Late night sauna Late night sauna
Here comes ya mother
Oh oh oh no not another

Girl can you feel this chemistry
Look into my eyes
