

Butterfingers, Stolen

Baby baby you better be under control
So don't lose out low
Name name me the other one for once
I recall so do me a favor
Rise..
up rise the waterfall
Wetting my eyes
I've lost my own sight but
At least for a while
Just as long as I cry
I've got everything
At least for a while
Just as long as I'm gone
Dive dive in your afterlife come back
Alive and let go the fear
Save I say the other one again I recall
So do me a favor
I've got it done
