

Butterfly Boucher, Busy

This could be so fun
I might just like it
I might just love it

I might get busy
I might get lonely
I just don't know yet
Can't wait to find out

This is so
This is familiar
This is so
This is so foreign
That's okay
Foreign's familiar to me now

This could be so fun
I might just like it
I might just love it

I might get busy
I might get lonely
I just don't know yet
Can't wait to find out

I'm getting dizzy
I'm pacing wearing the floorboards through
This is so
This is so normal
And yet so new

This could be so fun
I might just like it
I might just love it

I might get busy
I might get lonely
I just don't know yet
Can't wait to find out

This isn't what I had in
This isn't what I had in mind
But you know
And I know
It's all I need and a little bit more

This could be so fun
I might just like it
I might just love it

I might get busy
I might get lonely
I just don't know yet
Can't wait to find out

I might just love it
