

By Heart, Beyond The Satellites

I cross the stars now just to get to you
Outside my window the night is coming through
A heavy storm is loose and all the lights are out
But by the moon tonight I know you'll be all right

Together tonight, together we fly
We look down on the city below
Together tonight, together we fly
Only gravity's holding us down

I dream my dream
Where nothing comes between my world and me
Yeah, I fall beyond the satellites

I take a ghost train and forever leave this town
Below the streetlights the rain is pouring down
The moon is low tonight and all dressed up in black
To know the road ahead, I ask those coming back

Together tonight, together we fly
We see aliens and green satellites
Together tonight, together we fly
We are close to the end of the line

I dream my dream
Where nothing comes between my world and me
Yeah, I fall beyond the satellites

Together we fly, together tonight
We look down on the city below
Forever we fly, forever tonight
Only gravity's pulling us down

I dream my dream
Where nothing comes between my world and me
Yeah, I fall into the satellites

Beyond the satellites
