

By Heart, Catchy Music

When I have something to say
I turn to you, you you my music
You are my John, you are my Paul

I will never step aside
I will never shut my mouth
Everything I hear is catchy music
I can barely stand the sound
I can barely shut my eyes

But I am pleased if I can live
In my world of very catchy music
And sing a long
When I hide from the sun
My cancer turns, turns into music
I tell everyone I'm just twenty-one

I will never step aside
I will never shut my mouth
Everything I hear is catchy music
I can barely stand the sound
I can barely shut my eyes
