

C-BooL, Young Together

Let me know if you still remember me
Maybe once you met me, then you felt so free
Let me know if you ever feel so bad (feel so bad)
'Cause I know one way to make you not feel sad

To make you not feel sad
To make you not feel sad
To make you not feel sad
To make you not feel sad
To make you not feel sad

Feel sad
Feel sad
Feel sad

Ooh I'll never let you go
You'll never be alone
We are young together
Young together
Dance forever

Ooh I'll never let you go
You'll never be alone
We are young together
Young together
Dance forever

Let me know if you wanna play with me
When we dance together, then you feel so free
Let me know, but i know you don't feel bad
'Cause I know one way to make you not feel sad

Our paths have crossed for so long
And still humming that one short song
Every day every night
You can feel it inside
Let's go

Ooh I'll never let you go
You'll never be alone
We are young together
Young together
Dance forever

Dance Forever

Ooh I'll never let you go
You'll never be alone
We are young together
Young together
Dance forever
