C.C. Catch, Hear What I Say

I walked into your life Something told me that love lay in your eyes I feel like it's going all wrong But I never knew love like this before

So say sweet words like you mean them Say sweet words to me 'cause I need them

Hey hear what I say Don't take this love away now Hey hear what I say Don't take this love away now No no no no no Don't take this love now, no

You have walked out of my life And you left me with the pain down deep inside Played around searching For something more Now you never had love like this before

So say sweet words like you mean them Say sweet words to me 'cause I need them

Hey hear what I say
Don't take this love away now
Hey hear what I say
- (Don't take this love - no, not my love) Don't take this love away now - (away) No no no no no (not my love)
Don't take this love now, no

So say sweet words like you mean them Say sweet words to me 'cause I need them

Hey hear what I say
Don't take this love away now
No (not my love)
No no (not my love)
No no (don't take my love)
- Come back and stay with me Don't take this love now
