

# C.C. Catch, Shake Your Head (Radio Edit)

Shake your head, shake your head  
Shake your head, shake your head  
( let' s go, let' s go, let' s go to bed )

You can' t argue with death  
Can' t break a burly sailor' s neck  
You can' t drink lava from plastic glasses  
And you can' t influence the masses  
You can' t tune a radio to heaven  
You can' t live seven lives  
You can' t win money at the horses  
And you can' t fight the armed forces

Shake your head, shake your head  
Shake your head, shake your head ( let' s go to bed )

You can' t sue Buddha for libel  
You can' t rewrite the Bible  
You can' t hit homers like Babe Ruth  
And can' t put your finger on the truth

You can't sing under water  
You can't have the boss' daughter  
You can't make missles out of mud  
And you can't purify bad blood

Shake your head, shake your head  
Shake your head, shake your head ( let' s go to bed )

Shake your head, shake your head  
Shake your head, shake your head ( let' s go to bed )
