

C J Stone, Be Loved

Oh don't look back - no more
Your time is yet to come
No regres - no more
You are the chosen one
You stumble and you fall
But I will be around
Whatever it may take
I will come along

Refren:

I will be right behind you
I'll protect you
You will be my religion
My addiction
Just be loved
Just be loved
Yesterday I swore
To never let you go
After all these years
When I was hiding from the ghost
When I was colour-blinds
Your eyes made me see
The very deepest blue
Here inside of me.

Refren:

I will be right behind you
I'll protect you
You will be my religion
My addiction
Just be loved
Just be loved

Refren:

I will be right behind you
I'll protect you
You will be my religion
My addiction
Just be loved
Just be loved
