

C.K.Y, Fat fuck

This song is about Chad Ginsburg's lactose intolerance
I want cheese but I can't digest the shit
I'm on a leave in the middle of Washington
These are some of the things I can't eat
It's yogurt, milk, and cheese that makes me shit
I can not not not have nothing
But when I eat dairy my bowels do flow
Uh-oh I think I shit myself (ohhh!)
I had some ice cream and...
I'll be back, I'm goin' to the can!
He cannot digest the lactose these are just the facts
He cannot digest the lactose these are just the facts
He cannot digest the lactose these are just the facts
He cannot digest the lactose these are just the facts
