

C.K.Y, Sink into the underground

I can't breathe I can't get this out
Don't know and I can't explain
But I feel that I will be the only one now
Can't seem to penetrate
You can talk about the only way out
I know it's gonna get me again
Why do you have to tell me
The things you tell me
About working instantly
But I suppose that you expose and you open up one
Can't seem to penetrate
Still talking about the only way out
I know it's gonna get me again
I hope the demon doesn't dwell inside you
I know it's gonna get me again
No don't drop me now
I'll sink into the underground
I said no don't drop me now
I'll sink into the underground
Yeah
Still talking about the only way out
I know it's gonna get me again
I hope the demon doesn't dwell inside you
I know it's gonna get me again
No don't drop me now
I'll sink into the underground
Said no don't drop me now
I'll sink into the underground
No don't drop me now
I'll sink into the underground
So no don't drop me now
I'll sink into the underground
Yeah
