

C21, Alone Forever

I cant believe
Im holding on to everything you said
When you don't say it anymore

So many people told me
But I couldnt breath
Just look at me now
I cant believe
I never knew that at all

Its so hard
To realize why you always do this
To me, yeah

If you don't open up your heart
You don't wanna know
How to get me back inside
You don't know
'cause everytime I try
You always keep me waiting
all alone - forever

I close my eyes
To drift away, leave it all behind
What I see is just the same

Maybe if I hold you
So much to say
But where do I start
I cant believe
That I never knew that at all

Its so hard
To realize why you always do this
To me, yeah
